

REPORT OF THE INDEPENDENT ACCOUNTANT

To the management of Viking Cloud:

Scope

We have examined Viking Cloud, Inc., a subsidiary of Sysnet North America, Inc., (“Viking Cloud”) management’s [assertion](#) that for its Certification Authority (“CA”) operations at Chicago, Illinois in the United States of America, for its CAs as enumerated in [Attachment B](#), Viking Cloud has:

- disclosed its SSL certificate lifecycle management business practices in the applicable versions of its Viking Cloud Certificate Policy and Certification Practices Statement enumerated in [Attachment A](#), including its commitment to provide SSL certificates in conformity with the CA/Browser Forum Requirements, on its [repository](#) and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and SSL certificates it manages is established and protected throughout their lifecycles; and
 - SSL subscriber information is properly authenticated, for the registration activities performed by Viking Cloud
- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorized individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity
- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the CA/Browser Forum

throughout the period October 1, 2021 to September 30, 2022, based on the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline with Network Security v2.5](#)

Certification Authority’s Responsibilities

Viking Cloud’s management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline with Network Security v2.5](#)

Independent Accountant's Responsibilities

Our responsibility is to express an opinion on Viking Cloud management's assertion based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

The relative effectiveness and significance of specific controls at Viking Cloud and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls and other factors present at individual subscriber and relying party locations. Our examination did not extend to controls at individual subscriber and relying party locations and we have not evaluated the effectiveness of such controls.

Inherent Limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Independent Accountant's Opinion

In our opinion, management's assertion, as referred to above, is fairly stated, in all material respects.

This report does not include any representation as to the quality of Viking Cloud's services other than its CA operations in Chicago, Illinois, in the United States of America, nor the suitability of any of Viking Cloud's services for any customer's intended purpose.

Other Matters

Without modifying our opinion, we noted the following other matters during our procedures:

Matter Topic		Matter Description
1	Certificate Content	Viking Cloud disclosed in Mozilla Bugzilla #1776764 that two (2) certificates were issued without a DER encoded keyUsage extension.
2	OCSP Responses	Viking Cloud disclosed in Bugzilla #1765800 that an intermittent connection issue began to be reported in a log related to a database used to transfer, track, and provide statistics on certificate OCSP responses generated from the CA, catalogued, and transferred to the OCSP end point servers.
3	Certificate Content	Viking Cloud disclosed in Bugzilla #1720723 that it discovered a certificate that was issued with an invalid subject:localityName value and revoked it within the required timeline.

While the Viking Cloud assertion notes all issues disclosed on Bugzilla during the engagement period, we have only noted those instances relevant to the CAs enumerated in [Attachment B](#) and applicable to the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline with Network Security v2.5](#).

On October 17, 2021, the Viking Cloud group, formerly known as the Sysnet Global Solutions group, purchased the SecureTrust business, including Secure Compliance, Inc. (formerly named SecureTrust, Inc.), from Trustwave Holdings, Inc. On April 1, 2022, the Sysnet Global Solutions group announced the rebranding of the Secure Compliance, Inc. to Viking Cloud, Inc.

Use of the WebTrust Seal

Viking Cloud's use of the WebTrust for Certification Authorities - SSL Baseline with Network Security Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

VIKING CLOUD MANAGEMENT'S ASSERTION

Viking Cloud, Inc. ("Viking Cloud") operates the Certification Authority ("CA") services for its CAs enumerated in [Attachment B](#) in scope for SSL Baseline and Network Security Requirements and provides SSL CA services.

Viking Cloud management has assessed its disclosures of its certificate practices and controls over its SSL CA services. Based on that assessment, in providing its SSL CA services at Chicago, Illinois, in the United States of America, Viking Cloud has:

- disclosed its SSL certificate lifecycle management business practices in the applicable versions of its Viking Cloud Certificate Policy and Certification Practices Statement enumerated in [Attachment A](#), including its commitment to provide SSL certificates in conformity with the CA/Browser Forum Requirements, on its [repository](#) and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and SSL certificates it manages is established and protected throughout their lifecycles; and
 - SSL subscriber information is properly authenticated, for the registration activities performed by Viking Cloud
- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorized individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity
- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the CA/Browser Forum

throughout the period October 1, 2021 to September 30, 2022, based on the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline with Network Security v2.5](#).

Viking Cloud has disclosed the following matters publicly on Mozilla Bugzilla's platform. These matters were included below due to being open during the period October 1, 2021 through the date of this report.

Bug ID	Summary	Opened	Closed	Resolution
1776764	SecureTrust: 2 certificates with non-DER encoded keyUsage extension	June 27, 2022	Open	Open
1765800	SecureTrust: Incorrect OCSP response	April 21, 2022	Closed	10/14/2022
1720723	SecureTrust: Invalid localityName	September 28, 2021	Closed	10/5/2022

On October 17, 2021, the Viking Cloud group, formerly known as the Sysnet Global Solutions group, purchased the SecureTrust business, including Secure Compliance, Inc. (formerly named SecureTrust, Inc.), from Trustwave Holdings, Inc. On April 1, 2022, the Sysnet Global Solutions group announced the rebranding of the Secure Compliance, Inc. to Viking Cloud, Inc.
