

## REPORT OF THE INDEPENDENT ACCOUNTANT

To the management of Viking Cloud:

### Scope

We have examined Viking Cloud, Inc., a subsidiary of Sysnet North America, Inc., (“Viking Cloud”) management’s [assertion](#) that for its Certification Authority (“CA”) operations in Chicago, Illinois, in the United States of America, for its CAs enumerated in [Attachment B](#), Viking Cloud has:

- disclosed its extended validation SSL (“EV SSL”) certificate lifecycle management business practices in the applicable versions of its Viking Cloud Certificate Policy and Certification Practices Statement enumerated in [Attachment A](#), including its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines, on its [repository](#) and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
  - the integrity of keys and EV SSL certificates it manages is established and protected throughout their lifecycles; and
  - EV SSL subscriber information is properly authenticated, for the registration activities performed by Viking Cloud

throughout the period October 1, 2021 to September 30, 2022, based on the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL v1.7.3](#).

### Certification Authority’s Responsibilities

Viking Cloud’s management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL v1.7.3](#).

### Independent Accountant’s Responsibilities

Our responsibility is to express an opinion on Viking Cloud management’s assertion based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management’s assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management’s assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management’s assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

The relative effectiveness and significance of specific controls at Viking Cloud and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls and other factors present at individual subscriber and relying party locations. Our examination did not extend to controls at individual subscriber and relying party locations and we have not evaluated the effectiveness of such controls.

### **Inherent Limitations**

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

### **Independent Accountant's Opinion**

In our opinion, management's assertion, as referred to above, is fairly stated, in all material respects.

This report does not include any representation as to the quality of Viking Cloud's services other than its CA operations at Chicago, Illinois, in the United States of America, nor the suitability of any of Viking Cloud's services for any customer's intended purpose.

### **Other Matters**

While the Viking Cloud assertion notes all issues disclosed on Bugzilla during the engagement period, we have noted no instances relevant to the CAs enumerated in [Attachment B](#) and applicable to the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL v1.7.3](#).

On October 17, 2021, the Viking Cloud group, formerly known as the Sysnet Global Solutions group, purchased the SecureTrust business, including Secure Compliance, Inc. (formerly named SecureTrust, Inc.), from Trustwave Holdings, Inc. On April 1, 2022, the Sysnet Global Solutions group announced the rebranding of the Secure Compliance, Inc. to Viking Cloud, Inc.

### **Use of the WebTrust Seal**

Viking Cloud's use of the WebTrust for Certification Authorities - Extended Validation SSL Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

## VIKING CLOUD MANAGEMENT'S ASSERTION

Viking Cloud, Inc. ("Viking Cloud") operates the Certification Authority ("CA") services for its CAs enumerated in [Attachment B](#), and provides Extended Validation SSL ("EV SSL") CA services.

The management of Viking Cloud is responsible for establishing and maintaining effective controls over its EV SSL CA operations, including its EV SSL CA business practices disclosure in its [repository](#), EV SSL key lifecycle management controls, and EV SSL certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to Viking Cloud's CA operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

Viking Cloud management has assessed its disclosures of its certificate practices and controls over its EV SSL CA services. Based on that assessment, in Viking Cloud management's opinion, in providing its EV SSL CA services in Chicago, Illinois, in the United States of America, Viking Cloud has:

- disclosed its EV SSL certificate lifecycle management business practices in the applicable versions of its Viking Cloud Certificate Policy and Certification Practices Statement enumerated in [Attachment A](#), including its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines, on its [repository](#) and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
  - the integrity of keys and EV SSL certificates it manages is established and protected throughout their lifecycles; and
  - EV SSL subscriber information is properly authenticated

throughout the period October 1, 2021 to September 30, 2022, based on the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL v1.7.3](#).

Viking Cloud has disclosed the following matters publicly on Mozilla Bugzilla's platform. These matters were included below due to being open during the period October 1, 2021 through the date of this report.

Bug ID	Summary	Opened	Closed	Resolution
<a href="#">1776764</a>	SecureTrust: 2 certificates with non-DER encoded keyUsage extension	June 27, 2022	Open	Open
<a href="#">1765800</a>	SecureTrust: Incorrect OCSP response	April 21, 2022	Closed	10/14/2022
<a href="#">1720723</a>	SecureTrust: Invalid localityName	September 28, 2021	Closed	10/5/2022

On October 17, 2021, the Viking Cloud group, formerly known as the Sysnet Global Solutions group, purchased the SecureTrust business, including Secure Compliance, Inc. (formerly named SecureTrust, Inc.), from Trustwave Holdings, Inc. On April 1, 2022, the Sysnet Global Solutions group announced the rebranding of the Secure Compliance, Inc. to Viking Cloud, Inc.
